Top tips for top spotters!

Some creepy crawlies prefer warm, dry weather, while others come out when it's wet.

Try getting a bugs' eye view of the world.

Fab facts!

Not all creepy crawlies are insects. Some, like snails, are molluscs; others, like centipedes, are arthropods.

In some parts of the world, creepy crawlies are delicacies, and people eat them!

Cut around the dotted lines, then push a split pin through the centre to attach the top piece to the bottom piece.
