

Waterhouses CE
Primary Academy

Waterhouses CE Primary Academy SPECIAL EDUCATIONAL NEEDS AND DISABILITY INFORMATION REPORT FOR PARENTS 2020 -21

*'Celebrate Learning, Achieving and Friendship in God's Love' Core Christian Values:
Love, Hope, Trust, Respect*

All Staffordshire maintained schools and academies have a similar approach to meeting the needs of pupils with Special Educational Needs & Disability and are supported by the Local Authority to ensure that all pupils, regardless of their specific needs, make the best possible progress in school. All schools are supported to be as inclusive as possible, with the needs of pupils with a Special Educational Need/s and /or disability being met in a mainstream setting wherever possible and where families want this to happen. As a small school we take pride in the whole staff knowing, understanding and supporting each pupil individually which is even more important this year due to the global pandemic.

1. How does the school know if children need extra help?

Our highly individualised approach to teaching and learning for all pupils ensures monitoring of progress is proactive. We know when pupils need help if:

- Concerns are raised by parents/carers, teaching staff, or the pupil's previous school.
- If tracking of attainment outcomes indicate less than expected progress.
- Our observations indicate that a pupil may have additional needs in one of the following areas: **Communication and interaction, Cognition and learning, Social, mental and emotional health and Sensory/physical.**
- There is a change in the pupil's behaviour

2. What should I do if I think my child may have special educational needs?

If you have concerns then we encourage you to contact your child's teacher in the first instance who will then liaise with the school Special Educational Needs Coordinator (SENCO) to discuss next steps.

3. How will the school staff support my child?

All pupils are provided with high quality personalised teaching that is differentiated to meet the diverse needs of all learners. Pupils with a disability will be provided with 'reasonable adjustments' in order to increase their access to the taught curriculum.

For children with SEND, we follow what is known as the Graduated Response. This involves 'layers' of target planning, intervention and assessment followed by termly reviews with parents (virtually or face to face).

Quality First Teaching

For your child this would mean:

- That the teacher has the highest possible expectations for your child and all the pupils in the class.
- That all teaching is based on building on what your child knows, can do and can understand.
- Independent learning skills will be developed through our Empowered Learner Award and Healthy Minds and Healthy Bodies schemes.
- Teaching is differentiated and suited to your child's needs so full involvement in learning in class is achieved. This may involve things like using more practical learning.
- Your child will have a Learning Support Plan (using the Boxall Profile) with key targets to work towards. The targets will be agreed with you and your child and you will be given a copy for home. The class teacher and/or teaching assistant will support your child to achieve these targets. Specific strategies or resources will be used to help your child to learn to the best of their ability.
- Close monitoring and liaison with the SENCO and/or outside agencies to ensure your child is being supported to make the best possible progress.

Specific group work with a smaller group of children or 1:1 sessions with a teacher or teaching assistant

If a pupil has needs related to more specific areas of their education or social skills, such as phonics and spelling, reading, writing, mathematics, communication skills, behaviour strategies, etc. Then the pupils will receive small focussed interventions or additional 1:1 support.

For your child this would mean:

Regular focus groups (1:1 or small groups no larger than 6) supporting the specific area of need to help accelerate progress.

Specialist support from outside agencies such as: Speech and Language therapy, Behavioural specialists, Educational Psychologists

Following targeted interventions a pupil may be identified as needing additional external support.

- You may be asked to come to a meeting to discuss your child's progress and help plan possible ways forward.
- You may be asked to give your permission for the school to refer your child to a specialist professional e.g. an Educational Psychologist or an Occupational Therapist.

- The specialist professional will then work with your child and make recommendations or provide a programme of support to the school and parents/carers.

Specified individual support

If a pupil has particularly complex, severe and lifelong additional needs and requires an exceptionally high level of individual support and teaching, the school or parents/carers may consider requesting an Education, Health and Care Assessment that will be undertaken by the Local Authority.

For your child this would mean:

- A request to the Local Authority may lead to a statutory assessment of your child's needs. This is a legal process which sets out the amount of support that will be provided for your child.
- If the Local Authority decides that your child's needs are severe, complex and lifelong, they will write an Education, Health and Care Plan (EHCP)
- This document will describe your child's SEND and the provision they should receive. The plan usually specifies extra resources to help your child. These could include staff time or special equipment.

How will the curriculum be matched to my child's needs?

- Teachers plan from children's levels differentiating work to closely match children's ability and learning needs. When a pupil has been identified with special educational needs their work will be further differentiated by the class teacher to remove barriers to learning and enable them to access the curriculum more easily.
- Specially trained Teaching Assistants can further adapt the teacher's planning if necessary.
- Teaching resources are routinely evaluated to ensure they are accessible to all pupils.
- ICT may be used to reduce barriers to learning e.g. ipads with specialist apps
A teaching assistant may be allocated to work with the pupils in a 1:1 or small intervention group to target more specific needs.
- If appropriate specialist equipment may be given to pupils e.g. writing slopes, pen/pencil grips or easy to use scissors.

How will both you and I know how my child is doing?

The quality of teaching and pupil progress is monitored through data tracking, work scrutiny, scrutiny of planning, classroom observation, learning walks, scrutiny of attendance and behaviour records, pupil surveys and parental/carers feedback. There is ongoing assessment of progress made by pupils in specific intervention groups. Pupil Progress Meetings (PPMs) are held every term between the headteacher/SENCO to

assess whether further intervention or a change of intervention is required to ensure your child makes the best possible progress.

At Waterhouses CE Primary Academy we strongly value parent partnership and an open collaborative relationship between school, parents/carers and child. We have a strong 'open door' policy and welcome parents and carers into the school at any time.

- Class teachers and teaching assistants are regularly at the classroom door at the beginning and end of the day if you wish to pop in for a chat or you can contact your class teacher via Class Dojo. Appointments can usually be made for the same or next day if you wish to speak in more detail to the class teacher, teaching assistant or SENCO, following current Covid-19 government guidelines.
- Notes to and from home in our home-school link books and reading diaries (or a more detailed home/school contact book if necessary) support ongoing communication about your child's progress.
- You will be able to discuss your child's progress at Parents' Evenings.
- SEND review meetings are held at least once a term and more often if required. Learning Support Plans (LSPs) are sent home at least each term detailing pupils' individual targets and progress towards meeting them.
- Meetings with outside support agencies are arranged as required.
- Annual reviews of EHC Plans will be held annually or sooner if required.

How will you help me to support my child's learning?

- We are committed to equality of opportunity and access for all.
- Teachers and Teaching Assistants suggest ways to support your child through regular communication- through both formal and informal meetings, notes in the home-school books or feedback on homework.
- The SENCO may meet with you to discuss how to support your child.
- Outside agencies or the Educational Psychologist may suggest advice or programmes of study that can be used at home.
- SEND review meetings and parents' consultation meetings review progress and discuss next steps for your child.
- When it is possible we will look to arrange parent/carer workshops (dates and times indicated in the weekly newsletter) throughout the year to encourage an open and relaxed forum where advice and ideas can be exchanged. Our parent/carer workshops provide information and parent training in a range of subjects.
- We provide regular parent/carer 'help' leaflets to support learning at home e.g. handwriting, the new maths curriculum.

What support will there be for my child's overall well-being?

Waterhouses CE Primary Academy has a warm and supportive environment which enables every child to feel happy, safe, valued and accepting of diversity. Our Christian

ethos and Values Education programme enriches our children whilst encouraging them to make sensible choices and to be respectful of others. Children are nurtured to become confident individuals ready to embrace their future. Our Healthy Minds and Healthy Bodies and Empowered Learner Award also encourages children to develop independent learning skills and to recognise the importance of wellbeing on achieving their potential. Our strong open door policy allows concerns to be dealt with immediately.

The school offers a wide variety of pastoral support for pupils. These include:

- Members of staff such as the classteacher and teaching assistant being readily available for pupils who wish to discuss issues and concerns.
- Wellbeing Fridays, where children are encouraged to voice their concerns, learn how to stay safe and lead healthy lifestyles.
- Pupil voice mechanisms through Class and School Councils, pupil questionnaires and learning conversations.
- 'Buddy' systems. e.g. older children are playground leaders encouraging children to join in games.
- Delivery of small group led interventions targeting social skills, self-esteem and emotional well-being eg Nurture
- An effective Personal, Social, Health and Economic (PSHE) curriculum that provides pupils with the knowledge, understanding and skills they need to develop skills to enhance their emotional and social knowledge and well-being. Please see our long term plans on our website for topics that are included.
- E-safety is a high priority and part of the ICT curriculum on a termly basis.
- The use of positive behaviour strategies and rewards, to celebrate individual achievements and differences.
- We ensure pupils' wellbeing and mental health remain a high priority.
- In Key Stage 2 the children all take part in residential visits which help promote team building skills, independent skills and life skills.
- The school accesses support from the Local Support Team and Behaviour Support Team who are able to provide support for pupils through 1:1 or group sessions where appropriate.

Pupils with medical needs

If a pupil has a medical need then a detailed Health Care Plan is compiled by our school nurse in partnership with parents/carers. Staff who provide medicine administration complete training that is overseen by the school nurse and follow the LA policy/DfE guidelines included within **supporting pupils at school with medical conditions**. (Statutory guidance for governing bodies of maintained schools and proprietors of academies in England February 2014)

What specialist services and expertise are available to or accessed by the school?

At times it may be necessary to consult with outside agencies to receive their more specialised expertise. These include:

- Special Educational needs Support Service (SENSS)
- Psychologist Support 7
- Dyslexia Support
- Physical Difficulties Support Service (PDSS)
- Autism Outreach Team
- Behaviour Support Service
- Hearing Impairment Team
- Visual Impairment Team and Child and Adolescent Mental Health Service (CAMHS)
- Educational Welfare Officers
- Local Support Team and Social Services
- Speech and Language Therapists
- Occupational Health Therapists
- Physiotherapists
- School Nurse

For a very small percentage of pupils, whose needs are significant and complex and the special educational needs provision required to meet their needs cannot reasonably be provided from within the school's own resources, a request will be made to the local authority to conduct an assessment of educational, health and care needs. This may result in an Educational, Health and Care Plan (EHCP) being provided.

What training are the staff supporting children and young people with SEND had or are having?

In order to ensure our staff have the skills and knowledge to support children with SEND, professional development is ongoing and often geared towards the needs of individual learners.

How will my child be included in activities outside the classroom including school trips?

Activities and school trips are available to all.

- Risk assessments are carried out and procedures are put in place to enable all children to participate in all school activities.
- Where necessary reasonable adjustments are made to facilitate the needs of children with SEND, this is discussed with parents/carers and children beforehand.
- We welcome parents/carers accompanying their children on school trips if they wish to help and support.

How accessible is the school environment?

As a school we are happy to discuss individual access requirements on a child by child basis as we recognise the no two children are the same.

How will the school prepare and support my child to join the school, transfer to a new school or the next stage of education and life?

A number of strategies are in place to enable effective pupil's transition. These are again led by the needs of the individual child and will place a strong emphasis on the child's mental wellbeing.

If pupils are transferring from another school, the previous school records will be requested immediately and a meeting will be set up with parents to identify and reduce any concerns.

How are the school's resources allocated and matched to children's special educational needs?

Schools are provided with funding to meet the needs of pupils with SEN from sources that include:

- 1) The Age Weighted Pupil Unit. This is funding provided for a school for each pupil it has on roll.
- 2) The notional SEN budget. Every school receives an additional amount of money to make special educational provision. This is called the notional SEN budget. The amount received depends mainly on social deprivation factors and pupils' prior attainment levels.
- 3) Top up funding. If a school can demonstrate that a pupil with SEN needs more than £6,000 worth of special educational provision, they can ask the local authority to provide top up funding to meet the additional cost of that provision. This is called Additional Educational Needs (AEN) funding.

This funding is then used to provide the equipment and facilities to support SEND pupils through:

- In-class support from teaching assistants
- Small group support from teaching assistants
- Specialist support eg 1:1 tuition
- Bought in support from external agencies e.g. speech and language support
- Specialist resources e.g. software such as Nessy and Accelerated Reader
- Continued Professional Development (CPD) for staff regarding SEND

How is the decision made about what type and how much support my child/young person will receive?

For pupils with SEND but without an Education, Health and Care plan (EHCP), the decisions regarding the amount of support required will be taken at meetings between the classteacher and SENCO and the parent/carer. For pupils with an EHCP, this decision will be reviewed annually to ensure the plan meets the needs of the individual child.

How are parents involved in the school? How can I be involved?

We believe that working together in partnership with parents ensures the best possible outcomes for every child. Parental involvement is key to a child's educational, social and emotional development. We therefore provide a range of opportunities for parents to be involved in school life. These include:

- Fortnightly celebration assemblies
- Parent workshops and open days/evenings
- Parents/Grandparents lunches
- Drama or Music productions
- Daily voluntary reading sessions
- Supporting or running a lunch time or after school club
- Sports events
- Opportunities to attend school trips
- An active PTFA

How will I be involved in discussions about and planning for my child's education?

All parents/carers are encouraged to contribute to their child's education. This may be through:

- Discussions with the classteacher, SENCO or headteacher
- During parents evenings
- During discussions with specialist advisors eg Psychologist Support
- During termly review meetings, parents/carers are encouraged to comment on their child's LSP with possible suggestions that could be incorporated.

Who can I contact for further information?

If you wish to discuss your child's educational needs or are unhappy about something regarding your child's schooling please contact one of the following:

- Your child's classteacher in the first instance
- The SENCO
- The headteacher
- For complaints please contact the school Governor with responsibility for SEN

Support services for parents of pupils with SEN include:

Parent Partnership
